Subject index

Abamectin 10, 15
Acanthamoeba 24–28
Acetylcholine
  in cestodes 74
Aedes aegypti 36, 81, 83, 91, 178
Age determination in insects 81–85
AIDS 41, 93, 95, 161, 163
Amblyomma
  astrion 175
  americanum 166–171
  cajennense 175
  cohaerens 175
  gemma 175
  hebraeum 175
  lepidum 175
  pomposum 175
  sparsum 175
  tholloni 175
  variegatum 175–177
Amoebiasis
  by free-living amoebae 24–28
  sexually acquired 93–95
  prevalence 2, 46
  ultrasonic diagnosis 180
Amphotericin B 133
Ancyclostoma
  braziliense 14
  caninum 14
Angiostrongylus
  cantonensis
    cryopreservation 138
    effect of ivermectin 16
    infection in rats 174
  costaricensis
    transmission 173
    prevalence 175
    public health importance 173–175
  vasorum 174
Anopheles
  arabiensis 35,147
  atroparvus 83
  gambiae 82, 89, 178
  maculipennis 83
  melas 84
  stephensi 36, 65, 166
Anopheline mosquitoes 34, 65, 147, 155, 177
Antigenic variation
  in malaria 32–33, 154
  in trypanosomiasis 30, 64, 115, 118, 148
Antimalarial drugs 71, 119–120
Apoprotein 86
Appropriate technology 181
Argas persicus 166
Ascariasis
  prevalence 2, 46, 47
  and malnutrition 47–52, 91
  ecdysteroids in 63, 99
Ascaridia galli 138
Ascaris
  lumbricoides 47–52, 177
  suum 13, 16, 49, 75, 98
Avermectin 10, 16, 142

Babesia bigemina 166
Bacillus thuringiensis 92
Bat trypanosomes 111–113
Bednets 147–148
Biomphalaria glabrata 116
Blastocrithidia culicis 143
Blood Incubation Infectivity Test 30, 86
Blowflies 178
Boophilus
  decoloratus 12
  microplus 12, 166–171
Bos
  indicus 166, 170
  taurus 166, 170
Brugia
  malayi
    control of immunity 18
    diagnosis and treatment 52–57
  timori 52–57
Bunostomum phlebotomum 12

Caenorhabditis elegans 15
Chabertia ovina 13
Chagas disease
  and low-cost housing 65–66
  autoimmunity 4–9, 148
  in Chilean mummies 3
  immunology 4–9, 148
  models for *Trypanosoma cruzi* 111–113
  world distribution 9
Chrysops cincticornis 83
Cholera 177
Cholesterol 63, 86
Chorioptes bovis 12
Cochliomyia hominivorax 82
Cooperia
  curticei 13
  onchophora 12, 13
  pectinata 12
  punctata 12
Cowdria ruminantium 175–177
Cowdriosis 175
Crab lice 29
Crithidia
  deanei 143
  oncopelti 143
Cryptosporidium
  epidemiology 159–165
  history and classification 159
  life-cycle 160
  pathogenesis 161–165
  sexually acquired 93–95
Cryopreservation
  of helminths 134–139
Cryoprotectants 136
Ctenodactylus gondi 42
Culex
  annulirostris 83
  molestus 83
  pipiens 82, 177
  quinquefasciatus 36, 68, 84, 178
Cuticular growth 82
Cyclops
  hosts of *Diphyllobothrium* 73
  hosts of guineaworm 39, 58
Cysticercosis 44

Damalinia bovis 12
Delhi Boil 149
Dermatophilosis 176, 177
Demodex canis 14
Dermacentor
  andersoni 169, 170
  variabilis 166
Dermatobia hominis 12
Dicrocoelium dendriticum 73
Dictyocaulus
  arnfieldi 14

filaria 13
viviparous 12
Dientamoeba fragilis 93
Diethylcarbamazine
comparison with ivermectin 15
side effects 55
treatment of lymphatic filariasis 52–57
Dipetalonema
reconditum 14
viteae 18, 21
Diphyllobothrium dendriticum
life-cycle 73
neurotransmitters 72–75
Dirofilaria immitis 11,14, 97–100
DNA probes
and molecular biology (BR) 117
for vector identification 89–90
methodology (BR) 118
Drachia megastoma 13
Dracunculus medinensis 39,58

East Coast Fever
chemotherapy 71
transmission 124
vaccination 124–128
vectors 124
Ecdysteroids 63, 96–100, 114
Echinococcus granulosus
neurotransmitters 74
Elephantiasis 52–57
Endolimax nana 93
Endosymbionts
of trypanosomatids 145–146
Entamoeba
coli 93
histolytica 93–95
Enterobius vermicularis 93
Environmental Impact Assessment 34, 182
European Federation of Parasitologists 40
Expert systems 34–35

Fasciola hepatica 98, 146
Filariasis
carried by pilgrims 177
diagnosis and treatment 52–57
guidelines for control 54
in India 55, 68–69
occult filariasis 53
prevalence 2
vector control 34, 36, 57

GABA
and action of ivermectin 15
Gaigeria pachyscelis 13
Genetic variation
in mice 17–23
in tsetse flies 59–60
Giardia lamblia 93, 94, 101–105
Giardiasis
and undernutrition 91
epidemiology 101–105
prevalence 2, 46
taxonomy 101–105
sexually acquired 93
Glossina
fuscipes 106
morsitans 59, 82, 84, 85, 107–109, 121, 166
pallidipes 60, 106–109, 121
palpalis 82, 107, 178
Glucantime 130, 131
Gold labelling 145–146
Gondi 42
Guineaworm 39, 58

Habronema muscae 13, 14
Haemaphysalis longicornis 166
Haematopinus
eurysternus 12
suis 13
Haemonchus
contortus 10, 13, 18, 22, 96, 135
placei 12, 13
Head lice 29, 118
Heartwater 175–177
Helix pomatia 97
Hookworm
and undernutrition 91
prevalence 2, 46
Hydatid disease 44
Hymenolepis
diminuta
drug action 75
ecdysteroids 99–100
neurotransmitters 73
microstoma 75
Hyostrongylus rubidus 13
Hypoderma
bovis 12
lineatum 12

Insect Bites 90–91, 118–119, 147–148
Immunity
genetic control of 17–23
in malaria 150–159
in theileriosis 124–128
to ticks 166–171
International Commission on Zoological Nomenclature 3
Iodamoeba butschlii 93
Irritable Bowel Syndrome 94
Isospora belli 94, 95
Ivermectin
an update 10–16
mode of action 15–16
Ixodes
holocyclus 166, 170
ricinus 170

Jarisch-Herxheimer reaction 132, 133
Juvenile hormones 63, 96–100

Karyotyping of trypanosomatids 64–65
Kala azar 149

Leishmania
and toxoplasmosis 42
chromosomes 64
clinical aspects 129–133
discovery 149
excreted factor 62
glycoconjugates 61–62
macrophage receptors 61–62, 149, 172
reference strains 172–173
braziliensis 129–133, 173
donovani 149, 173
major 61, 172, 173
mexicana 129, 131, 149, 172, 173
tropica 149, 173
Leishmaniasis
centenary 149, 172
chemotherapy 132, 172
cutaneous 61–63
espundia 131
hansenoid 130
history 149, 172
lupoid 130
mucocutaneous 129–133
prevalence 2
vaccination 172

Lice 29–30, 119, 142
Linognathus vituli 12
Low cost housing 65–66
Lucilia cuprina 82, 83
Lutzomyia
davisi 83
longipalpis 166
whitmani 129, 130

Macrocallista nimbosa 73
Malaria
and ascariasis 50
antigenic variation 32–33, 154–155
antimalarial drugs 71, 119–120
chemotherapy 37, 71
gametocytogenesis 32, 87–89, 155, 157
gold labelling of *Plasmodium* 145
in airports 177–179
life cycle 1, 150
merozoite vaccines 1, 32–33, 152–155
prevalence 2, 150
species 150
sporozoite vaccines 1, 32–33, 150–152
transmission blocking vaccines 32–33, 87–89, 155–158
vaccine trials 1, 32–33, 152, 158–159
Major Histocompatibility Complex 18, 61, 126, 127
Maring tribe 40
Mazzotti reaction 54
MHC (see Major Histocompatibility Complex)
Microtus cell lines 30–31

Metastrongylus elongatus 16
Moniezia expansa 99
Mosquito control
  age of vectors 81–85
  by environmental management 34–35, 182
  models 34
  in aircraft 177–179
  in India 68–69
  imported 177
  with polystyrene beads 36
  with impregnated fabrics 147–148
  with low-cost housing 65–66
  with mosquito coils 90–91
Mucor miehei 16
Mummies
  Chilean 3
  Egyptian 39
Musca vetustissima 83
Myocarditis
  in Chagas disease 4–9
  in toxoplasmosis 46

Naegleria 24–28
Nematodirus
  battus 13
  helvetianus 11–14
  spathiger 12, 13
Nematospiroides dubius 18, 22, 23
Neurocysticercosis 44
Neuropeptides 73
Neurotransmitters
  of cestodes 72–75
Nippostrongylus brasiliensis 21, 23

Oestrus ovis 13
Oesophagostomum
  colombianum 13
  radiatum 12
  venulosum 13
Oltipraz 99, 100
Onchocerca
  cervicalis 13
  volvulus 15, 90, 138
Onchocerciasis 92, 180
Opisthorciasis 182
Ornithodoros
  moubata 89
  savignyi 12
Orphan drugs 118, 146
Ostertagia
  circumcincta 13
  lyrata 12
  ostertagi
    arrested development 79
    chemotherapy 79
    economic losses to 67
    effect of ivermectin 12
    population biology of 76–81
    world distribution 77
Otodectes cynotis 14
Ovarian age determination 83
Oxyuris equi 14

Parafilaria bovicola 13
Parascaris equorum 14
Parvaquone 71, 126
Piroplasms (see theileriosis)
Pit latrines 36
Plasmodium (see Malaria)
Praziquantel 75, 99
Primary Health Care 181
Pteridines 84
Psorergates ovis 13
Psoroptes ovis 12, 13

Recombinant DNA Methodology 118
Rickettsiae
  agents of heartwater 175–177
  and tsetse susceptibility to trypanosomes 59–60
Rhipicephalus
  appendiculatus 124
  sanguineus 166, 169

Sarcoptes scabiei 12, 13, 14, 119, 140–142
Sarcoptic mange 141
Scabies
  biology 119, 140–142
  crusted scabies 141
  diagnosis 140–141
  effect of ivermectin 12
  prevalence in Denmark 140
  treatment 142
Schistosoma
  cryopreservation 134–139
  effect of ivermectin 11
  reproduction 113–114
  haematobium 180
  japonicum 19, 20, 116
  mansoni
    control of immunity 17–23
    cryopreservation 138
    drug action 75
    ecdysteroids in 98
    neuropeptides 73
    ultrasound 180
    water velocity 116–117
Schistosomiasis
  prevalence 2, 46
  preservation of schistosomes 113–114
  snail vectors 116–117
  ultrasonic diagnosis 180
Serotonin 72, 73
Sexually acquired infections 93–95
Sigmodon hispidus 174
Simulium
  damnosum 89
  venustum 83
Smallpox 37, 39, 66, 177
Society of Vector Ecologists 57
Solenopotes capillatus 12
Southern Blotting 89, 117
Stephanurus dentatus 13
Stomoxys calcitrans 82, 85, 166, 167
Streptomyces avermitilis 10
Strongyloides
  papillosus 12, 13
  ransomi 13
  westeri 14
Strongylus
  equinus 14
  vulgaris 13, 14

Taenia
  solium 44
  taeniaeformis 18, 21
Theileria
  immunity 124–128
  strain differentiation 127
  annulata 124
  hirci 124
  mutans 124
  parva
    chemotherapy 71
    immunity 124–128
    gold labelling 146
  sergenti 124
Theileriosis 124–128
Thelazia rhodesii 12
Ticks
  effect of ivermectin 12–14
  immunity 166–171
  vectors of *Theileria* 124
  vectors of heartwater 175–177
  vectors of dermatophilosis 176–177
TORCH syndrome 46
Toxascaris leonina 14
Toxocara canis 14
Toxoplasma gondii 41–46
Toxoplasmosis
  diagnosis 43
  importance 41–46
  in Britain 42
  in Chile 44
  prevalence 41, 46
Triatoma infestans 3, 81
Trichinella spiralis
  effect of ivermectin 13
  genetics of immunity to 17–23
Trichostrongylus
  axei 12, 13, 14
  colubriformis 12, 13, 18, 22
Trichuriasis
  prevalence 2, 46
  genetics of immunity in 17–23
Trichuris
  muris 17
  ovis 13
  trichiura 93, 94
  vulpis 14
Trypanosoma
  brucei
    antigenic variation 30, 64, 115, 118, 148
    advances in culture 30–31
    effect of lipids 86–87
    in southern Africa 121–123
    karyotypes and chromosomes 64–65
    serodiagnosis 115
    susceptibility of tsetse flies 59–60
  congolense 31, 59, 64, 121

cruzi (see Chagas disease)
dionisii 111–112
verspertilionis 111
vivax 31, 121
Trypanosomatid endosymbionts 145–146
Trypanosomiasis
cases in Mashonaland 123
culture of African trypanosomes 30–31
effect of lipids 86–87
eradication plans 121–123
immunology 148
serodiagnosis 115
susceptibility of tsetse to infection 59–60
prevalence 2, 46
trypanocidal drugs 121, 122
Tsetse flies
control by trapping 106–110
decreased fecundity 166
eradication plans 121–123
mouthparts in trypanosome culture 31
response to odours 108
sterilising traps 110
susceptibility to trypanosomes 59–60
Turbatrix aceti 134

Ultrasound for diagnosis 179–180
Uncinaria stenocephala 14

Vaccines
against ticks 166–171
in theileriosis 124–128
malaria vaccines (see malaria)
New Approaches to Development 37
Vaccination certificate requiremen 37
Vaginulus plebeius 173, 174

Warble flies
effect of ivermectin 12
Water Development Projects 34, 3 68
Wellcome Tropical Institute 70
Wellcome Trust 70, 117,
Wuchereria bancrofti 52–57, 177

Xenopsylla cheopis 14
